PROFILE SUMMARY

Computer Science Engineering student with a strong interest in software development. Skilled in building web applications using HTML, CSS, JavaScript, and Python. Eager to gain practical experience, enhance coding skills, and contribute effectively as a Software Developer.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science & Engineering 2023 – 2027 (Pursuing)
Tontadarya College of Engineering, Gadag (VTU)

WORK EXPERIENCE

Intern - YTLCourses 2025

YTLCourses is an online learning and training platform focused on delivering technical and professional skill development programs with emphasis on practical and industry-oriented learning.

- Developed and modified web pages based on project requirements.
- Implemented responsive frontend features using HTML, CSS, and JavaScript.
- Supported backend scripting and logic implementation using Python.
- Participated in testing and debugging to improve application stability.
- Prepared documentation explaining key project features and workflows.

PROJECTS

CropConnect - Web Application
A web platform developed to connect farmers directly with buyers and reduce dependency on intermediaries.

- Designed and structured the overall workflow of the application.
- Developed frontend interfaces and integrated backend functionality.
- Created reports and presentation materials for project demonstration.
- Explained system architecture and project execution during evaluation.

Tic Tac Toe (XOX) Game
An interactive browser-based game built with a clean and responsive design.

- Developed game logic using JavaScript.
- Designed a responsive and user-friendly interface using HTML and CSS.
- Implemented win detection logic and reset functionality.
